

**Energise your future.**

**We explore the genius in you.**

**We empower you to build a better world.**

**JAZ**  
ACADEMIC  
SERVICES

**- ACADEMIC TRAINING  
- BEHAVIOURAL CLINIC**

Academic training moulds a child to becoming a responsible adult and our Behavioural Clinic brings about personal transformation.

**JAZ Academic Services** programmes are different, so is our faculty, our academic strengths and our outlook on business. Educational programmes at JAZ Academic Clinic aim even higher and go beyond the traditional approach of imparting an analytic framework to solving problems. Our programmes enable you find the route to success at the intersection of theory and practice, where we discover and implement innovative solutions to real-world problems. The main focus of educational programs at JAZ Academic Training Centre is to make each one of our students exposed to the latest trends.

JAZ Academic Services comprises two divisions:

**Academic Training  
Behavioural Clinic**

## What does **JAZ** Offer?

Today's education is based on the idea of cramming the students with 85% knowledge 10% skills and 5% with the right attitudes – whereas the need of the hour and the future is a proper blend of all these three aspects – attitude, skills and knowledge and that is what JAZ delivers.

**JAZ** Academic Services' Training programmes are classified under five categories with a view to mould the life of a child from his/her early years to becoming a confident, responsible and successful adult using the "mantras" of positive coaching and training or equipping them with the tools necessary for that positive change namely coaching/ training.

## **JAZ** Academic Services Training

In the fast changing scenario of today's world, almost everything is undergoing a sea change, whether it be education, culture, technology values etc. Therefore, if we want our children (adapt to the change) to undergo this transition in the most successful manner, then we need to equip them with the tools necessary for that change – namely, coaching and training.

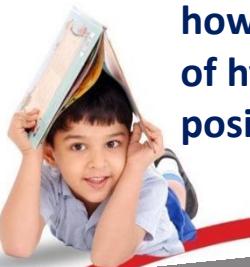

## Playschool and Kindergarten

The primary emphasis in this area will be to instill joy, playfulness and happiness in children and through it, implant the initial steps of learning – with warmth care and love (parents, teachers and all those who associate with them on a daily basis). This coaching involves the Parent (parenting), Teachers (Train the trainer), Children (fan the embers of joy, playfulness and happiness in the children).

**how to correct children with tenderness warmth and love?**

**how to channelize the energy of hyper-active children in a positive manner?**

## Lower primary (LP)

How to instill hygiene, positive attitude, sensitivity, empathy, caring, love for nature etc. On the academic side, emphasis has to be given to the strengthening of language, communication, simple mathematical and reasoning skills, team spirit, respect for self, others, parents, teachers etc. The basics of right and wrong, rudimentary value system, love of environment, right usage of mobile phone and internet for children and parents.

## Primary and High school

Awareness of the self, positive habits, gender education, exam fear, low self-esteem, depression, anxiety, rebelliousness, positive channeling of energy – building or acquiring talents – DAT (differential aptitude test), communication skills, motivation, leadership, group discussion, ragging etc.

## Professional Students and Jobseekers

How to excel in motivation, positive thinking, confidence building, interpersonal relationships, group discussion, team building, communication skills, public speaking, leadership qualities, body language, behavioural change, right attitudes etc. We prepare you to be positive and successful, to love nature & you, society, value systems, excelling in career, **CV writing**, presentation skills and how to face different types of interviews.

### NEGATIVES

## **TEACHERS**

### **Train the Trainer**

How to teach children with love and care. Motivating and guiding children in the right path. Correcting children in the right manner. Role modeling, building a proper value system etc.

## **Why **JAZ** Academic programmes are important for Students and Parents?**

As APJ Kalam said, "Education with values must be so designed that the righteousness in the heart is developed in young minds. That should be the mission of education and the prime learning environment is five to seventeen years of age".

Every parent wants their children to excel in school education and in life. To groom them as disciplined and responsible citizens, JAZ will help you achieve these goals.

## Methodology

Teaching in an enjoyable environment, by effectively engaging them through games, videos, pictures, and by, providing challenging and stimulating activities. Building confidence in children for public speaking, developing their communication skills, grooming their inborn talents etc. are some of the other techniques. We do this using the latest technologies and by motivating the children from the feed-back of parents and from observing children, through various assessment methods and counselling the parents. The classes will be undertaken in English to develop their language skills, which is also very much lacking in our children.

Our In-house and External Faculty members have a meticulous approach and use cutting edge practices in the teaching methodology. Education is the road for children to reach their full potential in life. Children, unlike the rest of us, handle change best if it is expected. They learn from mistakes to meet challenges. JAZ Consultants with their proven knowledge of the various scenarios has teamed up professionals in training and enlightening the children in the educational field. To achieve this, JAZ is teaming up with educational reformists to fetch technology and skill development closer using best practices to improve higher education at par with global standards.

## Our faculty at a glance

### Reshma Sreedhar (Lower Primary Section)

**Reshma Sreedhar** is a post graduate in Commerce, Counselling and Montessori training. She is also an international corporate trainer well versed in soft skills.

Her area of specialization are children and adolescence problems along with parenting. **Ansamma Thomas**  
Director – Academic Affairs  
(Higher Secondary School  
Principal (Rtd.)

## "The Mountain Man"

JAZ Consulting has decided to simulate the determination of the "mountain man" to drive our path towards business glory. Dashrath moved the mountain. JAZ Academic Services is moving towards the mountain dream to make it a reality. Dashrath Manjhi, popularly known as the "**Mountain Man**" is a legend from Bihar, who was born in a poor labourer's family in 1934 in Gahalour village. He proved that nothing is impossible to achieve. We consider Manjhi as the real Shahen-shah. Shahjahan had the power and money to build Taj Mahal. Dahrath's life gives a moral lesson that a small man, who has no money and no power can challenge a mighty mountain.
